## EDUCATION

---

**GITA Autonomous College, Bhubaneswar**  
CSE | CGPA: 7.4

2022 – 2026

**R.P.S School ,Bihar Sharif,Nalanda,Bihar**  
CBSE (Class XII)

2020 - 2021

## TECHNICAL SKILLS

---

C++ | C | Java | Python | DSA | Machine Learning | JavaScript | NodeJS | React | MongoDB | MySQL | GitHub | Express.js | AWS

## PROJECTS

---

### Amazon Clone

*Tech Stack: Html,Css,React.js, Node.js, Express.js, MongoDB*

#### Description:

Developed a full-stack e-commerce web application inspired by Amazon. Implemented user authentication, product listings, cart functionality. Integrated authentication and used MongoDB for product and user data storage.

#### Key Features:

- User registration and login using Firebase Authentication
- Product browsing with dynamic routing and responsive UI
- Add-to-cart and real-time cart updates

### Food Ordering Platform

*Using React, MongoDB, NodeJS, and more.*

- Building a food ordering platform involves a multidisciplinary approach combining user experience design, software development, database management, and integration skills.
- The goal is to create a seamless, efficient, and enjoyable experience for both customers and restaurants.

## EXPERIENCE/Internship

---

- Web Development at internpe for one month (15<sup>th</sup> July – 15<sup>th</sup> August)

## Certificates

---

- [HTML and CSS: Building a Single-Page Website](#) Coursera Project Network Issued Dec 2024 Credential ID YJD3XL6REG1S
